

INVITATION

BUSINESS-DRIVEN ICT INFRASTRUCTURE

ENABLES NEW INDUSTRIAL REVOLUTION

CommuniCast Myanmar 2016

8th Dec 2016
Novotel Hotel, Yangon

Dear _____,

On behalf of Huawei, it is our pleasure to invite you and your team to attend Huawei CommuniCast Myanmar 2016, which will be held in Yangon, on December 8th.

Universal connectivity is changing the world as people and people, people and things, and things and things become fully connected. Information and communication technologies are converging. The physical and digital worlds are converging as people, enterprises, cities, and industries connect. Emerging ICT technologies will be integral to this process: cloud computing, Big Data analytics, Internet of Things, ultra-broadband, and software-defined networking (SDN).

All industries can leverage these technologies, and the opportunities are limitless. Huawei is pleased to invite you to share the ideas in this conference. You will hear and gain first-hand insights, perspectives, and experience-sharing on how to build agile system to support the digital service transformation and how to cope with the challenges brought about by the digital era, from leading telecom operators and industry thought-leaders.

We appreciate your consistent support and look forward to welcoming you at the Huawei CommuniCast Myanmar 2016.

Yours sincerely,

Mr. Zhang Liman

CEO

Huawei Technologies (Yangon) Co., Ltd.
